Bill Pelton	(406) 671-5100	Western Beef Producer
Dwayne Dietz	(406) 656-3191	Yellowstone Services

TERMS AND CONDITIONS:

- Each animal will be sold to the highest bidder without reservation.
- The auctioneer will settle any disputes as to bidding and his decision will be final.
- Terms of all sales will be cash unless arrangements are made between purchaser and seller prior to sale.
- Individual health papers will be furnished with each animal permitting shipment to any state.
- In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal. No adjustments will be made after nine (9) months of sale day on any animals.
- The animal becomes the property of the purchaser as soon as sold but it shall be the responsibility of the seller to see that animals are properly cared for until delivered to the purchaser.
- Any death or injury after the animal is sold is at the buyer's risk.
- Anyone attending this sale attends at their own risk and without liability on the part of the owners or their employees.
- Corrections or additions of any information contained in the sale catalog will be announced from the auction stand and will take precedence over any printed material.

Welcome to Holden Herefords

This is our invitation to you to attend our 39th annual production sale.

Once again, we are pleased to offer an outstanding set of bulls that are uniform and predictable in quality, type, and breeding. This group represents the top 73% of our 2004 calf crop. They are a balanced trait set of bulls that combine thickness, performance, pigment, maternal, fleshing ability, carcass, disposition and moderate birthweight. Their average EPD's are BW +2.8 WW +39 YW +70 Milk +18 M&G +38. They will sell with complete performance and ultrasound data, and as always, fully guaranteed.

Our cow herd is Line One in breeding. We purchased our first Line One cattle over 50 years ago. Since then we have purchased and used many top sires from the Miles City Research Station. We have also exchanged and purchased top herd sires from Cooper Herefords. We have also selected top herd sire prospects from our own herd every year.

We were one of the first members of the Montana Beef Performance Association when it was organized in 1956 and were very active in it until it was dissolved. We have been involved with the TPR program of the American Hereford Association and are active participants in the Whole Herd Reporting Program. These records have been very important in selecting and maintaining the performance and quality of our cattle.

We have a severe culling program for our mother cows. We cull on performance, fertility, soundness, udder quality, and milk. Our cattle are the product of many years of selection for these traits. Our cowherd is our pride and many of the top cows in the breed have come from our ranch.

We have stayed with a strong performance, multi-trait linebreeding program to enhance the predictability of our cattle for our customers. Our

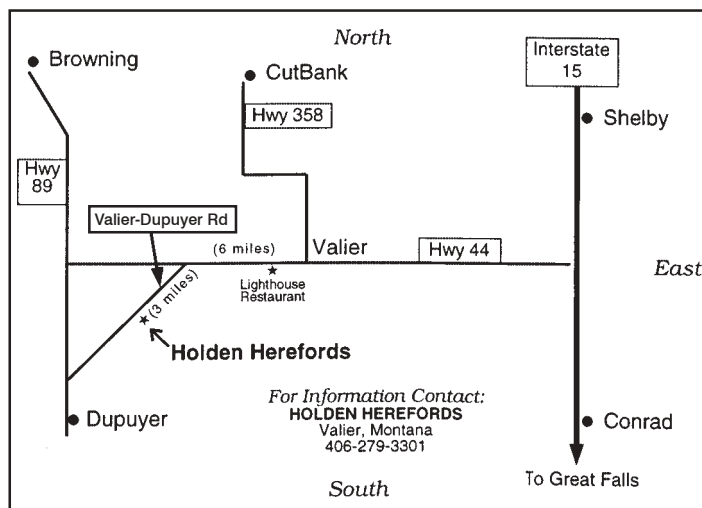

focus has always been on stacking generation after generation of the traits that add value to our customer's bottom line. A linebreeding program can only succeed if you continually add cattle with superior genetics to it. The advantage of our program is the uniformity and predictability it provides along with the heterosis that can be generated by an outcross within the breed or between breeds. These bulls have generations of bred in performance and will pass these traits on to their progeny consistently.

The bulls and cowherd will be on display March 13th, 14th, and 15th for your inspection. Coffee and donuts will be served on March 14th and lunch will be served on sale day. There will be a social hour and dinner at the Lighthouse Restaurant on March 14th from 6:30 to 8:00 p.m. Please come and be our guests.

Thank you for your interest in our program. Please feel free to stop by and inspect the cattle at any time, and if we can help you out in any way, please give us a call.

Jack & Tresha Holden

SALE LOCATION

Holden Herefords is 9 miles west of Valier on the cutoff road to Dupuyer. Take Highway 44 for 6 miles and then the left-hand fork off highway. You can't miss it.

TRAVEL AND ACCOMMODATIONS

♦ "0024K" has proven to be a great all around breeding bull. He is a trait leader for YW, M&G, Fat and REA EPD's and ranks in the top 20% of the breed for WW, Milk and Scrotal EPD's. He is a heavily pigmented, moderate framed bull that is loaded with red meat. He consistently sires strong performing calves that are just like him. He is easy calving and was used on heifers for 3 years with no problems. His daughters are top quality females with lots of milk, good udders, and fleshing ability. Now owned by EE Ranches, MS and KS.

♦ "2136M" is a calving ease and maternal specialist that still sires performance. He ranks in the top 10% of the breed or better on Calving Ease, BW, Milk, M&G and Scrotal EPD's and is still in the top 20% on YW EPD. We have calved heifers to him for the last two years with excellent results. His dam was one of our favorite cows at Cooper's. She was a high volume, feminine, super uddered cow with pigment on her teats. Owned with EE Ranches, MS and KS.

Sale Bulls

SALE BULLS...

This group of bulls are the top 74 out of 95 head. They are an outstanding group in terms of thickness, pattern, performance, disposition, and EPD's. They are also extremely impressive in their overall uniformity and depth of quality. We will have complete ultrasound and scrotal data available at sale time. The average EPD's on the sale bulls are BW +2.8 WW +40 YW +70 Milk +18 M&G +39. Breed average for 2003 born calves is BW +3.7 WW +36 YW +61 Milk +14 M&G +32. Almost 85% of the bulls in the sale are breed average or below for BW EPD, over 90% are breed average or higher for YW EPD, and over 90% are breed average or higher for Milk and M&G EPD's. The bulls were again developed on the CHS ration called Bull Challenger. They gained 3.4 lbs. a day on a 140 day gain test and have an average adj. 365 day wt of 1255 lbs. They had an average weaning weight of 712 lbs on Aug 24, 2004 with no creep feed. They also scanned super averaging 13.0 inches on adj. 365 day Rib Eye Area with only an average BackFat thickness of .29 inches.

♦ "4075" is a top notch herd bull prospect that is loaded with red meat. He is a big topped, deep sided bull with tremendous muscle expression down through the stifle. He is also 100% pigmented and has phenomenal EPD's that rank him in the top 8% of the breed for YW, Milk, M&G, Scrotal, and REA EPD's. He backs it up with powerful individual performance, and he scanned a 14.6 inch REA. His dam is a moderate framed, power cow that boasts a 112 average NR. She also raised our 396N herd bull that we are so excited about and a full sister to 4075 was the pick of our heifer calves that sold at Denver for \$12,000.

♦“4121” is probably the most powerful herd bull prospect we have ever had by the Cooper 0124K bull. He combines an 88 lb. birthweight with phenomenal performance numbers. He is a long bodied, deep sided bull with lots of muscle expression. To top it off, he is a maternal brother to the 399N bull that topped last year's sale to Edgar Herefords in Texas for \$23,000. His dam has an outstanding record and is a granddaughter of the 339 cow also.

♦ "4154" is another big, long well made herd bull prospect out of the great 93451 Miles City cow. There is a lot of performance in this cross. Our top 2 heifers on weaning weight and our top heifer on yearling weight are flushmates to these bulls. "4154" ratioed a 132 on marbling also.

♦Powerful herd bull prospect with as much volume and fleshing ability as any bull in the sale. Look at his tremendous individual performance also. To go along with it, he is probably the best overall carcass bull in the sale. He has great carcass EPD's and he backed it up by scanning a 13.8 inch REA with a 111 on marbling ratio. A full brother was our 3rd high seller last year to Cooper Herefords. He is backed by a great cow family and all 3 cows on the bottom side of his pedigree were donors for us.

♦"3209" is a big, long, well marked fall ET bull out of 824 and a top 484 daughter. He was roughed out until about 13 months of age when we put him in with the spring bulls. He has good EPD's and if you're looking for a little older bull that will cover more cows, he would be a good option.

Brooke showing Freddie - 4th Place Carcass Steer

This year we are pleased to have Shafer Ranch from Sherman, Texas as a cooperating breeder.

Shafer Ranch is owned by Steve Shafer and family, and managed by Dennis Schock. They have been in the Hereford business for many years and have been buying groups of top females from us for the last 6 or 8 years. At this time they have well over 50 head of Holden bred females on the ranch. They have a powerful herd bull battery also, including owning an interest in the 212M bull that topped Cooper's sale for \$54,000 in 2003.

The bulls in the sale from Shafer Ranch represent the top 50% of the Line One calves from their 2004 calf crop. Some of them were in dam in females purchased from us and some are out of their ET program. These bulls were raised in Texas and shipped up in September. They were a little behind ours on weight plus they had to make the adjustment from the trip, so their yearling weights are lighter than the bulls raised here. The genetics are the same and the bulls sell with the same guarantee.

♦ "P41" is a stylish, well made, thick herd bull prospect out of the 212 Cooper bull. He has an outstanding set of curve bending EPD's with strong carcass EPD's also. His dam was a top donor female for us. She is long and deep with a great udder. "P41" was really flying on test but broke a horn about halfway through and it slowed him down for awhile.

♦ "373" is a 3/4 brother to the 212M Cooper bull. He was our pick at Cooper's last year and he has developed into a tremendous bull. He has a great set of curve bending numbers with strong carcass and his dam is a role model brood cow. His first calves look outstanding. We don't have a picture of him yet, but look him up at sale time. It'll be worth your time.

♦ Semen \$25/ straw- \$50/cert.

♦ "320" is a very well marked, moderate framed bull with great EPD's across the board. He was one of our favorite bulls at Cooper's last year and their 3rd high seller to Eulert Ranch. We purchased him back in their dispersion and plan on breeding a select group of heifers to him this spring. Dam is a high volume, super uddered cow. Owned with EE Ranches, KS and MS

♦ "4140" is a phenomenal combination of performance, pigment, muscle, and maternal combined with calving ease. He was the #1 bull in this year's group of bulls on weaning ratio and the #3 bull on Adj. 365 day wt. He also scanned a 15.9 inch REA which was #1 in the group. He is coon-eyed and out of an outstanding 767 daughter. His maternal granddam is the great 496 Cooper cow pictured on page 13. Owned with Shafer Ranch, TX.
