TERMS AND CONDITIONS:

- Each animal will be sold to the highest bidder without reservation.
- The auctioneer will settle any disputes as to bidding and his decision will be final.
- Terms of all sales will be cash unless arrangements are made between purchaser and seller prior to sale.
- Individual health papers will be furnished with each animal permitting shipment to any state.
- In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal. No adjustments will be made after nine (9) months of sale day on any animals.
- The animal becomes the property of the purchaser as soon as sold but it shall be the responsibility of the seller to see that animals are properly cared for until delivered to the purchaser.
- Any death or injury after the animal is sold is at the buyer's risk.
- Anyone attending this sale attends at their own risk and without liability on the part of the owners or their employees.
- Corrections or additions of any information contained in the sale catalog will be announced from the auction stand and will take precedence over any printed material.

Welcome to Holden Herefords

This is our invitation to you to attend our 40th annual production sale.

Once again, we are pleased to offer an outstanding set of bulls that are uniform and predictable in quality, type, and breeding. This group represents the top 74% of our 2005 calf crop. They are a balanced trait set of bulls that combine thickness, performance, pigment, maternal, fleshing ability, carcass, disposition and moderate birthweight. Their average EPD's are BW +2.8 WW +40 YW +74 Milk +20 M&G +40. They will sell with complete performance and ultrasound data, and as always, fully guaranteed.

Our cow herd is Line One in breeding. We purchased our first Line One cattle over 50 years ago. Since then we have purchased and used many top sires from the Miles City Research Station. We have also exchanged and purchased top herd sires from Cooper Herefords. We have also selected top herd sire prospects from our own herd every year.

We were one of the first members of the Montana Beef Performance Association when it was organized in 1956 and were very active in it until it was dissolved. We have been involved with the TPR program of the American Hereford Association and are active participants in the Whole Herd Reporting Program. These records have been very important in selecting and maintaining the performance and quality of our cattle.

We have a severe culling program for our mother cows. We cull on performance, fertility, soundness, udder quality, and milk. Our cattle are the product of many years of selection for these traits. Our cowherd is our pride and many of the top cows in the breed have come from our ranch.

We have stayed with a strong performance, multi-trait linebreeding program to enhance the predictability of our cattle for our customers. Our

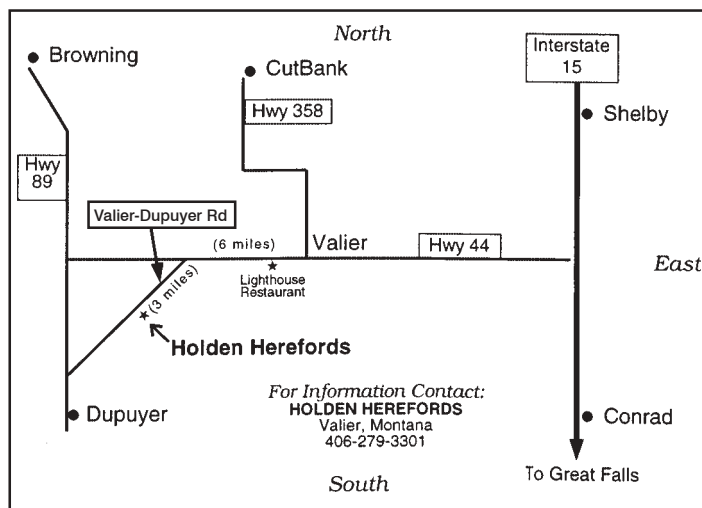

focus has always been on stacking generation after generation of the traits that add value to our customer's bottom line. A linebreeding program can only succeed if you continually add cattle with superior genetics to it. The advantage of our program is the uniformity and predictability it provides along with the heterosis that can be generated by an outcross within the breed or between breeds. These bulls have generations of bred in performance and will pass these traits on to their progeny consistently.

The bulls and cowherd will be on display March 11th, 12th, and 13th for your inspection. Coffee and donuts will be served on March 12th and lunch will be served on sale day. There will be a social hour and dinner at the Lighthouse Restaurant on March 12th from 6:30 to 8:00 p.m. Please come and be our guests.

Thank you for your interest in our program. Please feel free to stop by and inspect the cattle at any time, and if we can help you out in any way, please give us a call.

Jack & Tresha Holden

SALE LOCATION

Holden Herefords is 9 miles west of Valier on the cutoff road to Dupuyer. Take Highway 44 for 6 miles and then the left-hand fork off highway. You can't miss it.

♦ We feel 99496 is one of the best bulls to ever come from the Miles City Station. He sires moderate birth weight, thick, easy doing progeny with outstanding Carcass. He is backed by 2 of the great cow families at Miles City. He is a trait leader for both REA and IMF EPD's and ranks in the top 7% of the breed for both EPD's. Now owned by Coleman Herefords, CO. 7 extra thick sons sell!

♦ "0024" has been a cornerstone of our breeding program for the last 5 years. He is a powerful sire of pigment, performance, muscle, and maternal combined with moderate birth weight. He is a trait leader for YW, Milk, M&G, Fat, and REA EPD's and ranks in the top 10% of the breed or better for all 5 of those traits. His daughters have an average NR of 102.6 on 34 calves and are super uddered. Now owned by EE Ranches, KS. and MS. 3 powerful sons and many grandsons sell!

♦ "180" is a curve bender deluxe sire with great EPD's across the board. He is in the top 1% of the breed for Calving Ease and the top 25% for BW EPD yet still ranks in the top 10% of the breed or better for YW, Milk, M&G, Scrotal, and IMF EPD's. 180 had the top sire group of bull calves on weaning weight last fall and sired the high selling bull in our 2004 sale. His progeny display lots of length and volume and are well marked. We had the misfortune of losing 180, but are still using him as an AI sire. 11 high powered sons sell!

♦ "1362" is a Miles City bull that we have high expectations for. He is a moderate birth, performance sire with solid carcass EPD's. He sires moderate framed, thick made progeny with good pigment and eye appeal. His dam has an outstanding record and has been a great producer for them. He has really worked well on our 0024 daughters and has a great set of calves on the ground this year. 5 outstanding sons sell!

Sale Bulls

SALE BULLS...

This group of bulls are the top 78 out of over 100 head. They are an outstanding group in terms of thickness, pattern, pigment, performance, disposition, and EPD's. As always, they are also extremely impressive in their overall uniformity and depth of quality. We will have complete ultrasound and scrotal data available at sale time. The average EPD's on this group of bulls is BW +2.8 WW +40 YW +74 Milk +20 M&G +40. Breed average for 2004 born calves is BW +3.7 WW +37 YW +63 Milk +14 M&G +33. Almost 85% of the sale bulls are breed average or below for BW EPD, over 2/3 are breed average or higher for WW EPD, and well over 90% are breed average or higher for YW, Milk, and M&G EPD's. The bulls were developed on the CHS Feeds ration called Bull Challenger. They gained 3.43 lbs. a day on a 140 day gain test and have an average adj. 365 day wt. of 1266 lbs. They had an average actual weaning weight of 707 lbs. on Aug. 24, 2005 with no creep feed.

♦ Top quality herd bull prospect with a big top, extra pigment, and tremendous muscle expression down through the lower quarter. "5007" is clean fronted and stylish. He has great EPD's with a moderate birthweight and strong growth and carcass numbers. "5007" scanned a 14.4 inch ribeye and ratioed a 113 on REA ratio and a 107 on IMF ratio. His IMF EPD ranks in the top 5% of the breed. Dam is a great uddered cow with as much volume and fleshing ability as any cow on the ranch.

♦ "5068" is one of the top herd bull prospects in the sale. He combines all the traits that the industry wants; moderate BW, high growth and maternal traits, and strong carcass numbers. He is a big ribbed, extra long and thick bull with 100% pigment and lots of eye appeal. He scanned a 14 inch ribeye and had a 120 on marbling ratio. He is also a maternal brother to the 5212 bull that is a sale feature. Dam is a top donor cow with a great udder and an average NR of 107 and an average YR of 108. We are retaining a ¼ in herd use only semen interest.

♦"5122" is an outstanding combination of pigment, performance, phenotype, EPD's, and cow family. This extra powerful, well marked herd bull prospect has a +91 on YW EPD and is still barely over breed average on BW EPD. To top it off he is double bred to the great 339 cow, and his dam is a maternal sister to the 119 donor cow that sold for \$12,000 to England Herefords, OR in our 2005 cow sale. He also is a strong carcass bull with ratios of 100 on ribeye and 110 on marbling.

♦ Top herd bull prospect by 0024K. "5156" is goggle eyed with lots of volume and is loaded with muscle. He is out of a great power cow that sold for \$16,000 to DeShazer Cattle Co., TX and Whaley Polled Herefords, GA last fall. His dam was a granddaughter of the great 339 cow and a sister to our 8037 donor cow.

We prefer for each of you to be in attendance on sale day. Realistically, we know there will be some scheduling conflicts and distance limitations. In these cases, we have arranged for you to be able to participate in the sale on an absentee basis. Superior Productions now offers the convenience of participating on sale day by following the auction on the internet at www.superiorlivestock.com. Please call Superior Productions at 800-431-4452 and pre-register for your buyer's number.

♦ "5161" is an outstanding herd bull prospect that is probably the top performance and maternal bull in the sale. He is extra deep sided, thick, well marked, and easy on the eye. His dam is an easy doing, power cow with red pigment on her teats. She produced a herd bull for Spencer Herefords, NE. in last year's sale and is from the same cow family as our 216 herd sire. We really wanted to keep this great bull, but we just have too many females that are related to him to be able to use him enough. We are retaining a 1/4 in-herd semen interest so that we can use him in our ET program.

SHAFAER RANCH SALE BULLS...

We are pleased again to have Shafer Ranch from Sherman, Texas as a cooperating breeder. Shafer Ranch is owned by Steve Shafer and family and managed by Dennis Schock. They have been in the Hereford business for many years and have been buying top groups of females from us for 7 or 8 years. Many of our top donor cows are now in production at their ranch and they have well over 50 head of Holden bred females on the ranch. They have a powerful herd bull battery also, including owning an interest in the great 212M bull that topped Cooper's 2003 sale at \$54,000. We are proud to also own the 4140P bull in partnership with them.

The bulls in the sale from Shafer Ranch represent the top 40% of the Line One calves from their 2005 calf crop. Their dam's are all females that came from us and none of these bulls has a NR of under 104. They have outstanding EPD's that average BW +2.9 WW +41 YW +80 Milk +20 M & G +40. These bulls were raised in Texas and shipped up in September. They started out behind our calves on weight, plus had to make the adjustment from the trip, so their yearling weights will be a little lighter than ours. The quality and the genetics are definitely there though, so buy them with confidence.

The bulls sell with the same guarantee and complete yearling and ultrasound data will be available at sale time.

♦“R31” is extremely well marked with coon eyes and a big teardrop. His sire is a full brother to the 338 bull that sold for \$19,000 to Sidwell Herefords and Zurn Herefords in our 2004 sale.

Sale Heifers

SALE HEIFERS...

We had a big crop of heifer calves last year so we decided to offer a small group of heifers in the sale this year. This is a really nice group of females with lots of potential. They should average around 850 lbs. at sale time. There are a couple of ET heifers in this group along with a strong set of natural born heifers.
